

مصنع دانة لوبريكانتس (ذ م م)

DANA LUBRICANTS FACTORY L.L.C

(A Division of DANA Group)

ISO 9001:2015 & ISO 14001:2015 & ISO 45001:2018

Registered company by LLC (No: AJU-1116 & AJU-5046 & AJU-3057)

TECHNICAL DATA SHEET

DANA MIX XYLENE (C8 H10)

Product description

Dana mix xylene (mix/ortho) is a mixture of three benzene derivatives that is used as a solvent in the printing, Rubber, leather and allied industries. Dana mix xylene is colorless, sweet-smelling liquid that is very flammable and renowned for its intoxicating properties.

We are one of the leading company engaged in offering premium quality Dana mix xylene to our highly valued Clients. The detailed information about the msds can be easily viewed through the pdf that is given in pdf.

We are one of the leading importers & supplier of Dana mix xylene.

Chemical and physical properties

- Dana mix xylene is a chemical by a group of three benzene derivatives that encompasses ortho-,meta- And para-isomers of dimethyl group are attached.
- The o-,m- and p- designations specify to which carbon atoms (of the benzene ring) the two methyl methyl Groups are attached.
- Counting the carbon atoms from one of the ring carbons bonded to a methyl group and counting towards the second ring carbon bonded to a methyl group the o- isomer has the IUPAC name of 1,2-dimethylbenzene, the m-isomer has the IUPAC name of 1,3-dimethylbenzene and the p-isomer has the IUPAC name of 1,4-dimethylbenzene.
- Appearance : colorless
- Sweet-smelling liquid
- Flammable

Applications:

- Mix xylene is used as a solvent in the printing rubber and leather industries
- Used in the production of polymers
- Used as a cleaning agent for steel

About Manufacturer

Dana Lubricants Factory, Dubai based , Petrochemical manufacturer and supplier for wide range of Petrochemicals covering Base oils, Solvent Neutral Sn 100/150/300/500/600/900 , Automotive Lubricants and engine oils , Industrial Lubricant Oils and Grease , White oils and Petroleum Jelly, Octane Booster and Fuel Additives , Transformer oils Paraffinic and Napthenic , White spirit , Mix Xylene toluene and Rpo . Middle east is hub for all petrochemicals refined, produced and packaged in UAE in bulk packing like Iso , Flexi , Drums (Metal drums and plastic drums) , lbc (tote) and exported to across the globe using standard 20 " and 40" containers .
